

Sports Authority Competition names Conroe Boy as Semifinalist

on Apr 18, 2011 | Tagged in: sports , people , Conroe

The Sports Authority Move It Challenge has named Conroe resident, Fabian Fernandez, age 13, as one of their 15 semifinalists.

Fabian had not one, but two of his inventions make it to the semifinals in the competition!

One of his inventions is the "Art Soccer", which captures the dynamic movements of the players and the soccer ball through Radio Frequency Identification Tags that are then transferred to a software program which turns the player's soccer game into a piece of artwork. His other invention, the "Griffen Exercise and Diet Tracker", tracks an individual's exercise and diet through a smart phone application.

On May 14, 2011 the Grand Prize Winner in the competition will be announced at a live press conference during a Colorado Rockies game and the winner will get to throw out the first pitch of the game.

Good luck Fabian!
